# The Onion Ring

By: Sienna

There once was a camp. It was called Shankitunk. This camp wasn't like the other camps. This camp had rings for every cabin. But little did the counselors know there was another ring forged in the fires of the kitchen by Phil. The one ring to rule them all, called the Onion ring. Then some counselors gathered up. Justine, Tommy, Will, Kanye, Kimi and Becca's

cabin rose against Phil and the cooks. The fight was epic. Then Will took

A spoon and chopped off Phil's finger. The ring fell to the ground as the

Spoon shattered. Will picked up the ring. Justine led Will to the firey kitchen it was forged. Will took it for himself instead of destroying it.

Later Will got hit with a noodle and fell into the pool, the ring and him was never found again.... Until one day a counselor by the name of Josh

Was fishing in the pool with his friends Justin, Cameron, and Tristin.

They found the ring. They all wanted it so the only way to settle it WAS A EPIC GAME OF 4 SQUARE! Josh won the game and got the onion ring. Then he ate it.

# GAME REVIEWS

*By Madi*

## **4– Square:**

**When it was Rec A, campers decided to play 4-square. There were three games and each of them had very long lines. The rules of the game are pretty simple. The older kids 4-Square was much more intense than the younger kids square. They were yelling and laughing.**

## **Safari:**

**At activities time campers played safari. The counselors were running around like crazy and dodging all the kids. It was very chaotic. There was a lot of running involved so the counselors were probably tired at the end . All platoons did really good.**

Well superstitious, you should stay away from high places. Also if you have a four leaf clover that would help. Lastly you should probably not think about it too much.
